Multilayer Perceptron Simulator:
INPUT:
Momentum=0.9
Learning Rate=1
Iterations=50
No. of Hidden Layers=2

Multilayer Perceptron Simulator

Parameters:

Momentum: 0.9   Learning Rate: 1

Iterations: 50   Total Iterations: 50

Hidden Layers

No. of Hidden Layers: 2

Samples: Blue

Controls

Init   Learn   Clear

INSTRUCTION

1. Select Samples from dropdown.
2. Click on canvas to plot the Samples.
3. Click on Learn button to see how MLP classifies.
4. Click on Init Button to Learn the experiment again.
5. Click Clear to perform experiment again.
